

Correlate

Join Correlate in celebrating its 6th year showcasing at Lotusphere

Join Correlate in celebrating its 6th year showcasing at Lotusphere. Learn how Correlate continues providing award winning solutions such as Correlate CRM Integration with Relavis, one of the recipients of this year's IBM Lotus Beacon Award.

The IBM Lotus Beacon Awards recognize IBM business partners that specialize in Lotus software solutions and have excelled at providing quality products, innovative solutions and superior services to customers.

Lotusphere is the premier event for the Lotus community worldwide -- developers, administrators, IT and business professionals looking for collaborative software and solutions.

Learn how you can cure your information chaos, improve business processes, become more productive, and save time and money with Correlate software. The Correlate Software Suite integrates to (LDDM) Lotus Domino.Doc, IBM Workplace, IBM Websphere Portal, Relavis CRM, as well as Microsoft platform products.

Meet Correlate at our booth # 703

Serving Many Industry Sectors

Correlate provides innovative, cost saving solutions to many different industry sectors including:

Automotive

Manage costs and protect margins, improve purchasing and inventory, implement best practices process throughout your organization to simplify production and gain market share.

Banking

Better manage and store customer information, simplify management and collaboration of projects, and easily collect investment and market trend information to stay ahead of the competition.

Health Care & Life Sciences

Improve R&D processes, reduce administrative costs of searching for documents and other types of electronic information, or simplify the compliance submittal process for a faster go-to-market.

Oil, Gas & Energy

Overcome the challenges of rising operating costs, improve asset productivity as well as project completion, and capitalize on growth opportunities.
